The Rising Tide of Crypto Demand

Mainstream Approval

- With the SEC's recent approval of Bitcoin spot ETFs, cryptocurrency is gaining unprecedented acceptance in mainstream financial markets. The broader investor base can now participate in the crypto economy with the ease and protection they expect from traditional investment products.

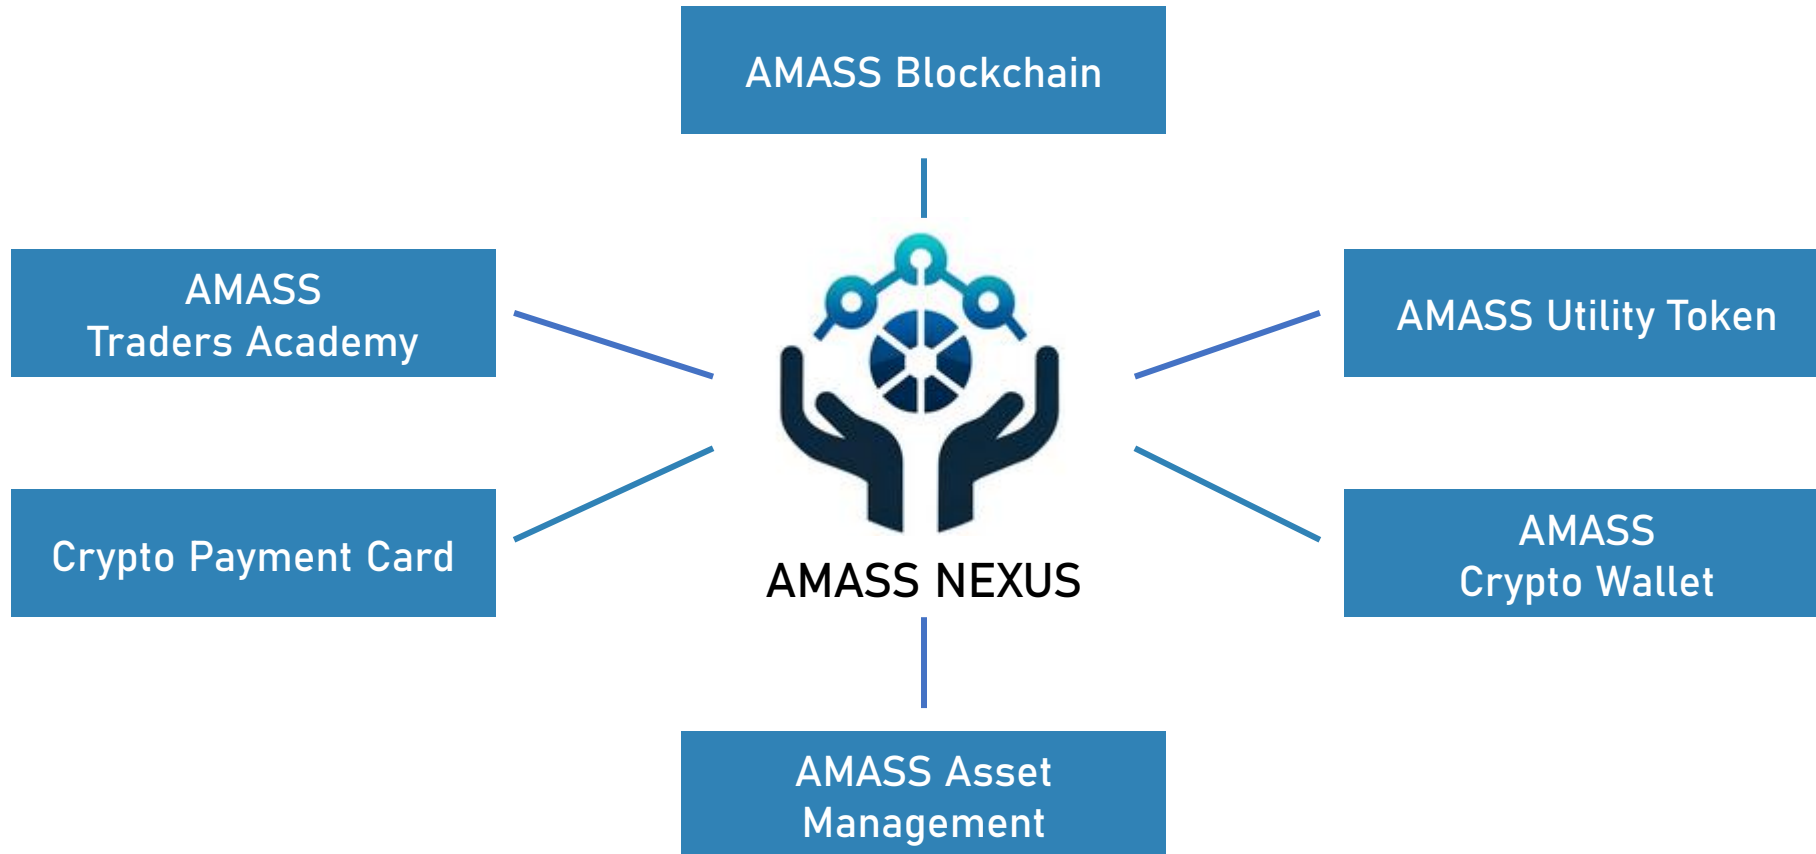

Institutional Endorsement

- [Berkshire Hathaway's \\$500 million investment](#) in Brazilian digital bank NuBank has not only yielded substantial profits but also serves as a strong endorsement from one of the world's most renowned investment entities.

The crypto industry is witnessing a [significant surge in demand from both retail and institutional investors](#). The onus is now on AMASS to provide a safe and risk-free platform for users to invest and engage with the crypto space.

AMASS – Empowering Your Financial Journey

A hub for comprehensive financial solutions tailored to your needs

The Launch of AMIC: AMASS's Next Chapter in Technological Developments

■ An Advanced Supercomputer and Blockchain-Enabled Algorithmic Trading Engine ■

WHAT IS A SUPERCOMPUTER?

- An extremely powerful computer system designed to process and analyze large amounts of data while performing complex computing tasks.
- With extremely fast processing speed, these systems can perform trillions or even hundreds of trillions of calculations per second.

Improving the quality and performance of the AMASS platform, to meet users' demand for a **FASTER, SAFER, and more EQUITABLE** trading environment.

AMIC Supercomputing Algorithmic Trading Engine

Compared with ordinary trading platforms, the AMIC Trading Engine can:

Predict market movements more accurately and reduce erroneous trades

Handle vast amounts of data to search for more trade opportunities

Take advantage of advanced algorithms to optimize the win rates of trades

Trade faster by executing orders at the microsecond level

Implement better risk management strategies to better prevent significant financial losses

Utilizing Blockchain Technology

AMIC has successfully integrated blockchain technology into its algorithmic trading engine, enabling automated execution of transactions and transparent and fair trades with smart contracts.

Every transaction is recorded on the blockchain as an immutable record, ensuring complete openness and traceability of transaction data. This prevents data tampering and eliminates any opaque elements in the transaction process.

Leveraging the transparency and security features of the blockchain, AMIC enhances trust and security within the trading platform, providing users with a reliable trading experience.

AMIC Supercomputing Algorithmic Trading Engine

Transaction processing time is over **10 times** faster than traditional trading platforms.

Live data processing and high-frequency trading have improved transaction execution efficiency by **over 70%**.

Security measures have been significantly enhanced, reducing the risk of data breaches and fraud by **over 95%**.

Efficient trade execution and accurate live market analysis have led to an average **increase of 30% increase in returns for users**.

Thanks to our broad business interests and multi-sectoral presence, we're uniquely positioned to discern market trends, ensuring that we focus on **long-term strategies to add value to your investment.**

The price of the underlying asset is on the correct side of the strike price

Trader receives payout

The price of the underlying asset is not on the correct side of the strike price

There is no payout

AMASS Liquidity Pool

■ Let your money work harder for you ■

WHAT IS A LIQUIDITY POOL?

A liquidity pool is a pool of funds accumulated from liquidity providers. The funds in the pool facilitate transactions for investors by acting as an automated market maker. When investors buy and sell assets, they essentially trade with the funds available in the liquidity pool. Traditionally, liquidity in financial markets have to be provided by financial institutions like banks and licensed investment companies. AMASS lets users become liquidity providers with their spare capital and earn yields.

AMASS's Liquidity Pools

AMASS creates specialized investment funds exclusively focused on cryptocurrencies and liquidity pools. Unlike other asset management firms that may diversify across multiple asset classes, AMASS offers specialized expertise in this new area of finance.

Investing in liquidity pools often yields higher returns compared to traditional investment avenues. By offering liquidity pools on decentralized finance (DeFi) platforms, AMASS provides its investors with cutting-edge exposure to financial innovations that are transforming the industry.

Chairman	50%

REMARK:

- Ranking bonus is distributed from 20% of the weekly profit
Depending on one's current ranking, one can enjoy ranking bonus at several levels.

EXAMPLE:

- Users can enjoy a percentage of 20% of weekly profits of their referrals.
- For a user with the "Leader" rank, he can get 10% of the 20% of weekly profits.

Example: User A has 200 referrals. Assuming that their total investment is \$200,000, and a weekly ROI of 4%, User A can receive the following Ranking Bonus:

$$\text{\$200,000} \times 4\% \times 20\% \times 10\% = \text{\$160}$$

Note: If your upline holds the "Manager" rank and is set to receive 15% of Ranking Bonus, he can only receive 5% of that as you have already collected 10%.

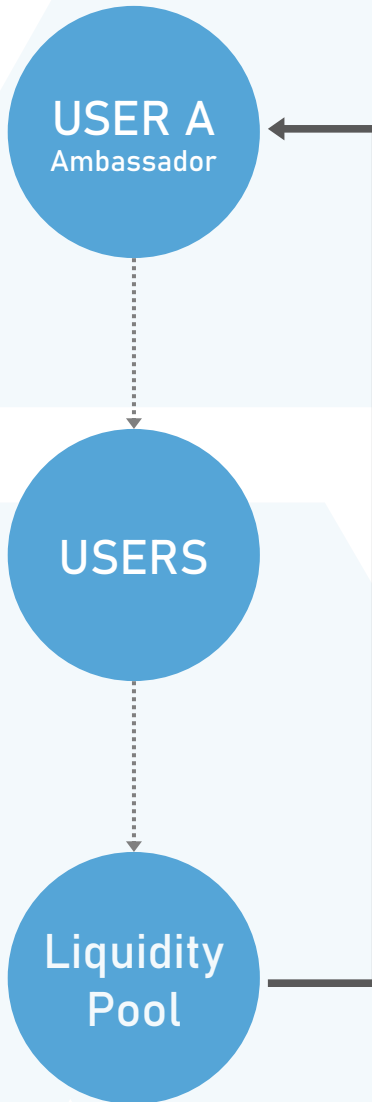

08. ALIGNMENT BONUS

ALIGNMENT BONUS	
Promoter	N/A
Leader	10%
Manager	15%
Executive	20%
Director	25%
Entrepreneur	30%
Consultant	35%
Ambassador	40%
President	45%
Chairman	50%

REMARK:

- An additional reward is given when a referral shares the same ranking as the referrer which is known as the Alignment bonus
- Alignment bonus will be distributed weekly from 20% of the ranking bonus

User A will receive Alignment Bonus from both users B and C, with a total of \$672 per month

EXAMPLE:

- User A is Ambassador ranking and directly refers user B, C and D.
- For instance, referrals User B and User C achieves the same ranking as referrer User A. The Alignment Bonus will be distributed from the earnings of ranking bonus.
- User D did not meet the requirement and therefore User A will not get to earn Alignment Bonus from user D.

User B and User C's monthly's ranking bonus is \$4,800 and \$3,600 respectively.

User A gets to receive Alignment Bonus of:

$$(\$4,800 \times 20\%) \times 40\% = \$384$$

$$(\$3,600 \times 20\%) \times 40\% = \$288$$
